2009

FOREWORD

The annual graduate follow-up survey collects information from graduates of regular and non-regular training programs approximately one year following graduation. The information gathered provides valuable feedback on the success of graduates in the labour market and is an important tool for decision-makers. This tool, along with other sources, is incorporated into the Department's planning process.

This report presents the findings of the *Survey of 2008 New Brunswick Community College and Collège communautaire du Nouveau-Brunswick Graduates*[1] The survey was conducted with 2,211 graduates over a sixteen week period starting July 2nd, 2009. This represents a response rate of 72%.

The reference week for the survey was June 7th – June 13th, 2009. Survey results indicate that graduates of the Class of 2008 were again very successful in locating employment, with an employment rate of 88%.

The Department would like to thank the New Brunswick Community College graduates who participated in this survey; their input has been invaluable.

Graduate follow-up survey results will be located on our website at the following location: ***http://www.gnb.ca/0126/index-e.asp***.

As always, your comments and suggestions are welcome. Please forward all communication on this year's survey to:

SOURCES OF INFORMATION

In addition to the *Survey of New Brunswick Community College and Collège communautaire du Nouveau-Brunswick Graduates*[2], the following are selected New Brunswick sources of on-line career, learning and labour market information. The list is not all-inclusive, as there are a multitude of information sources available. Not all of the following sources are related to the Department of Post-Secondary Education, Training and Labour, unless otherwise indicated. The descriptions have been adapted from the publications themselves.

NBCC and CCNB Calendars On-line
http://www.nbcc.nb.ca and http://www.ccnb.nb.ca

These are the official websites for the New Brunswick Community College and Collège communautaire du Nouveau-Brunswick. They provide general information on admissions to the campuses, as well as complete on-line calendars.

New Brunswick Student Financial Assistance
http://www.studentaid.gnb.ca/

The Student Financial Services Branch of the Department of Post-Secondary Education, Training and Labour administers and delivers all government student loan programs and most associated bursaries and grants. Student Financial Assistance is designed to assist eligible New Brunswick residents to access post-secondary educational opportunities. This website provides links to the Student Financial Assistance Information Guide and on-line forms.

Training and Skills Development (TSD) Program
http://www.gnb.ca/0311/index-e.asp

The Department of Post-Secondary Education, Training and Labour provides support through its TSD Program to eligible Employment Insurance (EI) clients who require training or academic upgrading as part of their employment action plan. This site provides details on the program, who is eligible, the level of support available, and who to contact for further information.

Labour Market Analysis Branch – Labour Market Information Products
http://www.gnb.ca/0126/index-e.asp

The Labour Market Analysis Branch's Information Products page provides links to our wide variety of on-line labour market information products, including the on-line version of this publication.

Service Canada – New Brunswick Regional Site
http://www1.servicecanada.gc.ca/en/gateways/where_you_live/regions/nb.shtml

This site provides information on the programs and services offered by Service Canada in New Brunswick, including labour market information.

NB Jobs
www.nbjobs.ca

This website promotes job opportunities in New Brunswick. It was developed by CareerBeacon.com in conjunction with the Government of New Brunswick.

Executive Summary

This report presents the findings of the *Survey of 2008 New Brunswick Community College and Collège communautaire du Nouveau-Brunswick Graduates*[4]. This follow-up survey generated information from 2,211 graduates, representing 72% of the 3,068 graduates to be contacted for this survey.

The points that follow present key information obtained through the 2009 survey.

- The employment rate for graduates one year following graduation was 88%, a decrease of four percentage points over that reported in 2008 (92%).
- The employment rate for female graduates was 91%, a decrease of three percentage points over that in 2008 (94%).
- The employment rate for male graduates was 87%, a decrease of four percentage points over that reported in 2008 (91%).
- The unemployment rate for graduates was 12% in 2009, an increase of four percentage points over the 8% reported in 2008.
- Overall, the percentage of related employment since graduation as a percentage of total employment decreased from 85% in 2008 to 83% in 2009.
- The level of related employment *in the 2009 reference week* has decreased by three percentage points over the past year (85% in 2008, 82% in 2009).
- The percentage of employed graduates working in New Brunswick has increased over the past year (90% in 2008, 94% in 2009).
- The percentage of graduates who reported being self-employed was 2% in 2009, consistent with 2008 (2%).
- The majority (92%) of employed graduates in 2009 continued to work for one employer in the reference week, higher than the percentage reported in 2008 (89%).
- Female graduates in full-time positions earned approximately 85% of the wages of male graduates in full-time positions, a decrease of two percentage points over 2008 results. Female graduates working full-time in positions related to their training earned 85% of the average wages of male graduates in similar positions, a decrease of one percentage point over that reported in 2008.

---

1.0 Introduction

Follow-up surveys with graduates of New Brunswick Community Colleges (NBCC)[5] have been conducted since 1983. For the past twenty-one years the survey has been conducted by telephone. The survey is conducted annually with graduates of regular and non-regular programs of the campuses. For the 2009 survey, interviews were completed with 2,211 graduates from a total listing of 3,068 graduates who were eligible to participate in the survey.

The data supplied by these surveys provides valuable feedback on the success of New Brunswick Community College graduates in the labour market, which, in turn, serves as an important indicator of how well the training provided by the NBCC system corresponds to the demands of the labour market.

This report provides detailed information gathered from the *Survey of 2008 New Brunswick Community College Graduates* through five sections, which are summarized in the material which follows.

- **Section 2.0** presents the methodology of the 2009 survey and provides a profile of the graduates contacted with a comparison with the overall population of graduates.
- **Section 3.0** presents the information highlights from the 2009 survey.
- **Section 4.0** presents fact sheets that report the survey information on a program-by-program basis.
- **Section 5.0** presents labour market information on a program-by-program basis.
- **Section 6.0** presents the evaluations provided by graduates of programs and services offered at NBCC.

A list of the terminology used in this report is provided in Appendix A.

---

[5] Note that references to the New Brunswick Community College(s), or NBCC, also include all campuses of the Collège communautaire du Nouveau-Brunswick, or CCNB.

2.0 Methodology

The *Survey of 2008 New Brunswick Community College Graduates* was guided by researchers from the Labour Market Analysis Branch of the Department of Post-Secondary Education, Training and Labour (the Department). Any comments or questions about the information contained in this document should be forwarded to the Department.

In June 2009, the Department generated a database with background and current contact information for 3,089 graduates from the Class of 2008. The background data and required contact information was retrieved from the Department's student information management system.

Prior to the start of the survey (in June 2009), the database was reduced by four (4) graduates for whom no current telephone numbers were available. During the data collection period, seventeen (17) graduates were removed from the original list because they were deceased (3) or indicated they were not graduates of a 2008 program (14). Following removal of these names from the database, there were 3,068 potential contacts for the Class of 2008. The 2,211 interviews completed represent 72% of the total number of graduates who were eligible to participate in this survey.

As in previous surveys, graduates were asked about their activities during a specific week of the year (the reference week). Reference week information is an indicator of graduates' current activities. ***The reference week for the 2009 survey was June 7th – June 13th, 2009.***

In addition to reference week information and information collected on activities since completing their training, graduates were also asked to evaluate their NBCC training program and various facilities and services available at their campus.

The overall approach to the Graduate Follow-Up Survey was changed in 1996. Previously, surveys were conducted in March, capturing information from graduates of the previous academic year. The change in the time of the reference week should be kept in mind when comparing the results from the surveys in 1996 - 2009 to those conducted in previous years. For example, the question asking respondents if they were studying during the reference week gave very different results in 1996 - 2009 compared to previous years. These differences are understandable considering that most people enrolled in post-secondary institutions would be attending classes in March but not in June.

This survey was administered by telephone, using a Computer Assisted Telephone Interviewing (CATI) system, and an attempt was made to contact all graduates, regardless of their current area of residence. Graduates were assured of absolute confidentiality of responses and were informed of their valuable contribution to the study. MarketQuest's toll-free number was provided to graduates if they had any questions or apprehensions about the survey. Graduates were given the option to complete the survey in French or English. Data collection for this study was completed during the summer/fall of 2009.

The 2009 survey response rate of 72% is lower than the 80% that was achieved historically. In recent years, it has required additional time for data collection to achieve the desired response rate.

The table that follows presents a summary of response rates for the surveys over the 2005 – 2009 period. As shown in the table, response rates have remained relatively stable over the past four years, however, they are consistently lower than the historical rate of 80%.

Table 1: Response Rates 2005-2009

	Graduate Population	Survey Population	Response Rate
2009 Regular/Non-Regular	3,068	2,211	72%
2009 Regular	2,536	1,854	73%
2008 Regular/Non-Regular	2,873	1,999	70%
2008 Regular	2,355	1,643	70%
2007 Regular/Non-Regular	2,646	1,894	72%
2007 Regular	2,159	1,531	71%
2006 Regular/Non-Regular	2,654	1,927	73%
2006 Regular	2,236	1,622	73%
2005 Regular/Non-Regular	2,385	1,794	75%
2005 Regular	1,873	1,517	81%

Measuring labour market participation is a primary objective of the graduate follow-up surveys. Because of the importance of this information, an attempt was made to determine the extent to which a change in the time of the reference week (initiated in 1996) affected the results of reported labour force activity. The potential effects were initially monitored in the 1996 survey and monitoring has continued through to the current survey.

As shown in the following table, the labour force participation rate was higher in June (95%) than in March (90%); however, the employment rate remained stable in March and June (88% and 88%, respectively).

Table 2: Labour Market Information – Comparison of March 2009 and June 2009

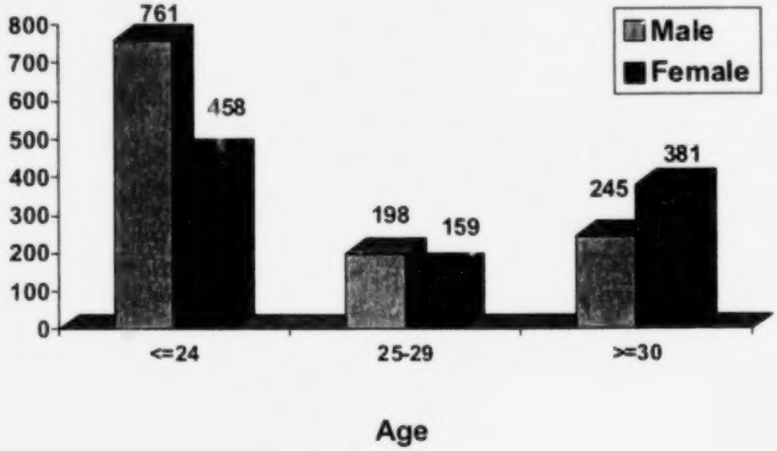
Labour Market Indicators	June 2009 (N=2,211)		March 2009 (N=2,191[6])	
	n	%	n	%
Labour Force Participation Rate	2,091	95	1,973	90
Employed	1,849	88	1,735	88
Unemployed	242	12	238	12

---

[6] Twenty respondents were unable to be classified as Employed, Unemployed, or Not in the Labour Force due to a lack of information provided.

The following figure presents an overview of the age and gender distribution for graduates contacted[7]. Most commonly, respondents were males aged 24 years or younger.

Figure 1: Respondents by Age and Gender



---

[7] Four males and five females could not be classified into age categories due to a lack of information provided.

The table that follows presents a comparative summary of graduates contacted in follow-up surveys over the past five years. Prior to 2000, there had been significant increases in the percentage of graduates 25 years of age or older and significant increases in the percentage of female graduates.

The percentage of female graduates in 2009 (45%) has decreased slightly compared with 2008 (48%). However, the percentage of graduates 25 years of age or older has remained relatively stable over the past year (45% in 2009 compared to 46% in 2008).

Table 3: Demographics 2005-2009		
Gender	**Male**	**Female**
2009 Regular/Non-Regular	55%	45%
2009 Regular	59%	41%
2008 Regular/Non-Regular	52%	48%
2008 Regular	58%	42%
2007 Regular/Non-Regular	52%	48%
2007 Regular	59%	41%
2006 Regular/Non-Regular	54%	46%
2006 Regular	57%	43%
2005 Regular/Non-Regular	52%	48%
2005 Regular	55%	45%
Age[8]	**24 and under**	**25 and over**
2009 Regular/Non-Regular	55%	45%
2009 Regular	60%	40%
2008 Regular/Non-Regular	54%	46%
2008 Regular	59%	41%
2007 Regular/Non-Regular	53%	47%
2007 Regular	59%	41%
2006 Regular/Non-Regular	54%	46%
2006 Regular	57%	43%
2005 Regular/Non-Regular	56%	44%
2005 Regular	61%	39%

---

[8] Nine respondents could not be classified into age categories due to a lack of information provided.

3.0 Survey Highlights

The information in this section presents a summary of research findings for the Class of 2008 along with a comparison of key variables in relation to research findings from previous years.

3.1 LABOUR FORCE INFORMATION

The labour force participation rate for all graduates has remained relatively stable over the past year (95% in 2009 compared to 96% in 2008), though the male and female participation rates have decreased slightly.

Table 4: Labour Force Participation Rate 2005-2009

	Total	Male	Female
2009 Regular/Non-Regular	95%	95%	94%
2009 Regular	95%	95%	94%
2008 Regular/Non-Regular	96%	97%	96%
2008 Regular	96%	97%	95%
2007 Regular/Non-Regular	95%	94%	96%
2007 Regular	95%	95%	96%
2006 Regular/Non-Regular	96%	96%	96%
2006 Regular	96%	96%	96%
2005 Regular/Non-Regular	95%	95%	94%
2005 Regular	95%	95%	95%

The table which follows presents comparative labour market information for the 2009 survey and the population of New Brunswick. As shown, graduates had a slightly higher unemployment rate than the province as a whole (12% and 9%, respectively). The unemployment rate for graduates, however, was lower than the youth unemployment rate of 15% (unadjusted) for June 2009.

Table 5: Labour Market Information – NBCC Graduates and Population of New Brunswick

Labour Market Indicators	Labour Force Survey[9]	2009 Survey		
		Overall	Regular Programs	Non-Regular Programs
Labour Force	404,000	2,091	1,753	338
Employed	366,900	1,849	1,535	314
Unemployed	37,000	242	218	24
Participation Rate	65%	95%	95%	95%
Unemployment Rate	9%	12%	12%	7%

The table that follows summarizes employment rates from 2005 - 2009 overall and by gender. Overall, the employment rate has decreased over the past year (88% in 2009, 92% in 2008). Similarly, the employment rate for female graduates has decreased compared to 2008 (91% and 94%, respectively), and male graduates have seen a similar decreased over the same period (87% and 91%, respectively). Consistent with previous years, female graduates continue to have a higher employment rate, overall, compared to male graduates.

Table 6: Employment Rate 2005-2009

	Total	Male	Female
2009 Regular/Non-Regular	88%	87%	91%
2009 Regular	88%	86%	89%
2008 Regular/Non-Regular	92%	91%	94%
2008 Regular	92%	91%	93%
2007 Regular/Non-Regular	91%	89%	92%
2007 Regular	89%	89%	90%
2006 Regular/Non-Regular	90%	88%	92%
2006 Regular	90%	88%	92%
2005 Regular/Non-Regular	87%	86%	89%
2005 Regular	87%	87%	87%

---

[9] Statistics Canada Labour Force Survey, June 2009, seasonally adjusted. The unadjusted unemployment rate for youth aged 15-24 was 13% in June 2008.

As shown below, the majority of employed graduates (94%) continue to be employed in New Brunswick. A similar percentage of employed graduates (95%) reported that they currently reside within the province.

Table 7: Percentage of Employed Graduates Working in New Brunswick	
2009 Regular/Non-Regular	94%
2009 Regular	94%
2008 Regular/Non-Regular	90%
2008 Regular	90%
2007 Regular/Non-Regular	87%
2007 Regular	87%
2006 Regular/Non-Regular	89%
2006 Regular	88%
2005 Regular/Non-Regular	89%
2005 Regular	89%

3.2 ADDITIONAL EDUCATION/ TRAINING FOR GRADUATES

In surveys prior to 2001, graduates were asked if they were attending an educational institution or training program at the time of survey contact. Since 2001, respondents have been asked if they were attending an educational institution or training program or planning to attend in the near future.

As demonstrated in the table that follows, the percentage of graduates attending or planning to attend an educational institution or training program (20%) has increased since 2005 (16%), but has decreased slightly after peaking in 2007 (23%).

Table 8: Percentage of Graduates Taking Further Study	
2009 Regular/Non-Regular	20%
2009 Regular	21%

3.3 OVERALL EMPLOYMENT FOR GRADUATES

The table which follows demonstrates the percentage of graduates with at least one month of employment in a position related to their training. Since graduation, 90% of graduates have been employed in positions related to their training. More specifically, graduates averaged 83% of their months employed since graduation in positions related to their training, a decrease of two percentage points since 2008.

Table 10: Percentage of Respondents in Related Employment Since Completing Training

2009 Regular/Non-Regular	90%
2009 Regular	89%
2008 Regular/Non-Regular	92%
2008 Regular	91%

2005 Regular/Non-Regular	87%
2005 Regular	87%

3.4 GEOGRAPHIC LOCATION OF GRADUATES

In June 2009, 94% of graduates were residing in New Brunswick, higher than the findings for the previous class of graduates (91%).

Approximately 10% of graduates have lived outside New Brunswick since graduation. Among those who have lived outside the province (n=224), the majority (58%) left the province for employment, a decrease since 2008 (64%). In 2009, 55% of graduates who left the province for employment had obtained employment prior to relocation, relatively similar to 2008 (56%).

Table 11: Geographic Location of Graduates

	Currently living in same community as before NBCC...	Lived outside NB at some point since completing training...	Of those who left - the percentage who left for employment reasons...	Of those who left for employment reasons - the percentage with a job to go to...
2009	79%	10%	58%	55%
2008	75%	16%	64%	56%
2007	74%	16%	71%	58%
2006	74%	17%	71%	41%

3.5 REFERENCE WEEK EMPLOYMENT

Employed

The following tables present an overview of information which describes employment during the reference week[10].

Table 12: Reference Week Employment Summary

Total Employed	One Employer	More than One Employer	One Employer and Self-Employed	Self-Employed
1,849	92%	5%	1%	2%

As in previous years, the majority of employed graduates (71%) were employed in permanent positions during the reference week. The percentage of graduates employed in permanent positions has decreased slightly since 2006 (74%) and is similar to 2005 levels (70%).

Table 13: Employment Status During Reference Week

	Permanent	Temporary	Self-Employed
2009 Regular/Non-Regular	71%	27%	2%
2009 Regular	71%	27%	2%
2008 Regular/Non-Regular	72%	25%	3%

2005 Regular/Non-Regular	70%	28%	2%
2005 Regular	71%	27%	2%

---

[10] Employment details including job classification, hours of work, average wages, and occupation were not collected for 30 graduates who were on maternity leave or in school - apprenticeship block during the reference week.

As with previous years, the majority of employed graduates (70%) were employed in positions directly related to their training. Overall, related employment (directly and indirectly) has remained decreased slightly over the past year (82% compared to 85% in 2008).

Table 14: Relation of Reference Week Work to Training

	Directly Related	Indirectly Related	Not at All Related
2009 Regular/Non-Regular	70%	12%	18%
2009 Regular	68%	13%	19%
2008 Regular/Non-Regular	73%	12%	15%

2007 Regular	69%	14%	17%
2006 Regular/Non-Regular	68%	15%	17%
2006 Regular	68%	15%	17%
2005 Regular/Non-Regular	65%	15%	20%
2005 Regular	65%	15%	20%

The employment rate for Co-op graduates (97%) was notably higher than the overall employment rate (88%). Furthermore, the percentage of employed Co-op graduates that were employed in positions related to their training was higher than graduates overall (88% and 82%, respectively).

Table 15: Employment Comparison - Graduates of Co-op Programs

	Total in the Labour Force	Employment Rate	Relationship of Employment to Training		
			Directly Related	Indirectly Related	Not at all Related
All graduates	2,091	88%	70%	12%	18%
Co-op graduates	154	97%	67%	21%	12%

The percentage of graduates employed in full-time positions has remained consistent with findings from 2008 (93% and 94%, respectively).

Table 16: Full and Part-Time Employment in Reference Week[11]

	Full-time			Part-time		
	Overall	Females	Males	Overall	Females	Males
2009 Regular/Non-Regular	93%	88%	98%	7%	12%	2%
2009 Regular	95%	90%	98%	5%	10%	2%
2008 Regular/Non-Regular	94%	89%	98%	6%	11%	2%
2008 Regular	95%	91%	98%	5%	9%	2%
2007 Regular/Non-Regular	93%	90%	96%	7%	10%	4%
2007 Regular	94%	91%	97%	6%	9%	3%
2006 Regular/Non-Regular	94%	90%	97%	6%	10%	3%
2006 Regular	95%	92%	98%	5%	8%	2%
2005 Regular/Non-Regular	93%	87%	98%	7%	13%	2%
2005 Regular	93%	87%	98%	7%	13%	2%

Graduates working full-time averaged 41 hours in the reference week with an average wage of $632. Graduates working part-time averaged 21 hours with an average wage of $306.

The table which follows provides more detailed information on wages reported by gender and job classification.

Table 17: Weekly Wages for Full and Part-Time Employment in Reference Week by Gender and Job Classification

	Full-time			Part-time		
	Overall	Females	Males	Overall	Females	Males
Permanent	$627	$570	$669	$321	$326	$298
Temporary/Casual	$645	$597	$685	$280	$292	$222
Self-Employment	$718	$524	$840	$1,000	-	$1,000

---

[11] Not all respondents could be classified on a full-time or part-time basis due to a lack of information provided.

Graduates were asked for their perceptions about the wages they earned in the reference week. Overall:

- 7% of employed graduates reported that their wages were much better than those of others in similar positions;
- 22% reported that their wages were better than those of others in similar positions;
- 55% reported that their wages were the same as those for others in similar positions; and
- 16% reported that their wages were worse (14%) or much worse (2%) than those for others in similar positions.

The table which follows shows the average full-time and part-time wages of employed graduates based on their perceptions of these wages. As shown below, there appears to be a relationship between the wages earned in the reference week and perceptions about those wages, whereby the higher the wages, the more positive the perception of these wages compared to wages in other similar positions.

Table 18: Satisfaction With Wages

Perception Of Wages	Average FT Wage	Average PT Wage
Overall Average	**$632**	**$306**
Much Better	$737	$372
Better	$679	$355
Same	$620	$286
Worse	$581	$284
Much Worse	$491	$257

The table that follows summarizes the length of time graduates have been employed in the reference week job. Similar to previous years, the majority of employed graduates (73%) have been employed in the reference week job for at least 31 weeks.

Table 19: Time in Reference Week Job

	1-10 Weeks	11-30 Weeks	31-50 Weeks	51+ Weeks
2009 Regular/Non-Regular	14%	13%	43%	30%

2005 Regular/Non-Regular	17%	18%	42%	23%
2005 Regular	17%	18%	45%	20%

Occupational Classification of Employment

The tables which follow present a summary of the top occupations in which graduates were employed in the reference week. Most commonly, employed graduates worked as Nurse Aides, Orderlies and Patient Service Associates (6%).

Table 20: Top Occupations - Employed Graduates

NOC	Occupations	Total	Full-time	FT $	Part-time	PT $
Overall		**1,849**	**93%**	**$632**	**7%**	**$306**
3413	Nurse Aides, Orderlies & Patient Service Associates	103	91%	$574	9%	$327

Industrial Classification of Employment

Starting with the 1999 Survey, industries in which graduates were employed in the Reference Week were coded according to the North American Industrial Classification System (NAICS). Should researchers want to compare employment in industrial sectors for 1999-2002 with other graduate survey data, a conversion program would be required. Conversion programs are available through Statistics Canada. Note that the NAICS numbers used represent major groupings within NAICS.

Most commonly, employed graduates worked in the Health Care and Social Assistance industry (22%).

Table 23: Top Industries - Employed Graduates

NAICS	Industrial Sectors	Total	Full-time	FT $	Part-time	PT $
Overall		**1,849**	**93%**	**$632**	**7%**	**$306**
62	Health Care	398	92%	$642	8%	$341
23	Construction	234	99%	$652	1%	-
31	Manufacturing	177	99%	$672	1%	$365
44	Retail Trade	156	88%	$501	12%	$225
91	Public Administration	115	95%	$708	5%	$286
61	Educational Services	104	62%	$557	38%	$327
54	Professional, Scientific & Technical Services	94	99%	$696	1%	$1,000
81	Other Services (Except Public Administration)	88	96%	$544	4%	$296
72	Accommodation & Food Services	86	88%	$488	12%	$257
56	Administrative & Support	59	93%	$558	7%	$174

Employed female graduates most commonly worked in the Health Care and Social Assistance industry (41%).

Table 24: Top Industries - Employed Female Graduates

NAICS	Industrial Sectors	Total	Full-time	FT $	Part-time	PT $
Females Overall		**852**	**88%**	**$576**	**12%**	**$307**
62	Health Care	337	91%	$620	9%	$345
61	Educational Services	79	51%	$572	49%	$317
44	Retail Trade	69	81%	$459	19%	$229
72	Accommodation & Food Services	62	89%	$490	11%	$294
91	Public Administration	43	86%	$630	14%	$286
31	Manufacturing	35	97%	$628	3%	$450
54	Professional, Scientific & Technical Services	32	100%	$565	-	-

22	Utilities	38	100%	$920	-	-

Gender Differences in Wages

In past graduate surveys, gaps have been identified between the overall wages of male and female graduates. In 2009, male graduates averaged $674 per week in full-time positions, while female graduates in full-time positions averaged $576 per week, a gap of approximately 15%.

Since it has been demonstrated that males and females tend to be employed in different occupations, gaps may be expected; however, as shown in the following table, similar wage gaps may not necessarily exist when male and female graduates are employed in the same occupations.

Table 26: Average Full-Time Wages for Male and Female Graduates in Similar Positions

Occupation (NOC)	Full-Time Weekly Salary		
	Males	Females	Female Wage Gap/Gain
All Employed Graduates	**$674**	**$576**	**-15%**
1453 – Customer Service Information Clerks	$544	$524	-4%
5241 – Graphic Designers & Illustrators	$655	$573	-13%
1411 – General Office Clerks	$605	$544	-10%
3413 – Nurse Aides, Orderlies, & Patient Service Associates	$606	$568	-6%
6421 – Retail Salespersons & Sales Clerks	$494	$421	-15%
3211 – Medical Laboratory Technologists	$863	$885	+3%
1433 – Customer Service Representatives – Financial Services	$686	$513	-25%
3214 – Respiratory Therapists	$1,200	$1,009	-16%
6242 – Cooks	$413	$410	-1%
6462 – Correctional Services Officers	$734	$713	-3%

Unemployed and Not in the Labour Force

Overall, 12% of graduates contacted (n=242) were unemployed in the reference week. The table which follows demonstrates that the unemployment rate varied considerably when segmented by campus. Information on unemployment rates within programs is presented in Section 5.0.

Unemployment Rate by Campus

Bathurst	15%	Miramichi	22%
Campbellton	10%	Moncton	11%
NBCCD	8%	Péninsule acadienne	20%
Dieppe	8%	Saint John	7%
Edmundston	7%	St. Andrews	11%
Fredericton Centre	5%	Woodstock	13%

Graduates who were not working during the reference week (n=362) were asked to provide the main reason for their not working. Graduates who were not working include those who were unemployed and those who were not in the labour force.

Most commonly, graduates were not working during the reference week because of an inability to find jobs related to their training (24%) or in school/training full-time (19%).

Table 27: Main Reason for Not Working During the Reference Week

Inability to find jobs related to NBCC training	24%
In school/training full-time	19%
Unable to find work/ lack of jobs	16%
Awaiting job start or recall	12%
Own illness or disability	9%
Personal or family responsibilities	5%
Laid off (non-specific)	4%
Lack work experience	2%
Available jobs require more training/ education	2%
In school part-time	2%
Other mentions	5%

Twenty-four percent of graduates not working during the reference week (n=88) were attending or planning to attend an educational institution or training program. These graduates provided the following reasons for their return to an educational institution or training program:

- to upgrade existing skills (26%);
- to learn a new trade or occupation (21%);
- to get a university degree (19%);
- to get a better/more interesting job (18%);
- to find employment (13%); and
- some other reason (3%).

3.6 OTHER SURVEY FINDINGS

Employment Since Graduation

The strong majority of graduates (98%) have been employed since graduation; and those employed averaged 1.6 different jobs. The percentage of graduates who have been employed since graduation has remained stable over the past year (99% for the previous class of graduates).

Motivations for Community College Enrollment

Beginning with the 1999 survey, all graduates were asked why they had decided to pursue their training at the NBCC rather than through a university or private training program. Overall, graduates offered the following reasons for pursuing training at the NBCC:

- the training is only offered at a particular campus (26%);
- tuition/costs (21%);
- the location of a particular campus (15%);
- reputation of the NBCC (14%);
- not interested in attending university (7%);
- job prospects (6%);
- length of program (4%);
- other reasons (4%); and
- unsure (3%)

When asked why they had selected a particular campus for their program of study, the following reasons were provided:

- location (59%),
- particular program was available only at the campus selected (24%);
- reputation (7%);
- friends/relatives attended/currently attending same campus (3%);
- preferred language of instruction offered (2%);
- other reasons (4%) and
- unsure (1%).

The strong majority of graduates (94%) were accepted to the NBCC in the year in which they made their initial application.

Overall, 83% of graduates reported that based on their experiences since completing the program, they would select the same field of study if they were making the decision about enrollment today.

Prior Learning Assessment and Recognition and Credit Transfer Services

Graduates were asked questions to determine their awareness, use and evaluation of PLAR and Credit Transfer Services. Overall:

- 58% of graduates reported that they were aware of these services; and
- 42% were not aware of these services.

When contacted in 2009, 59% of graduates reported awareness of PLAR and Credit Transfer Services.

Among those who were aware of these services (n=1,288):

- 65% heard about PLAR through their campus;
- 26% heard about PLAR through word-of-mouth;
- 6% heard about PLAR through other means; and
- 3% were unsure.

Of graduates who were aware of these services, 26% (n=330) have used them (15% of all graduates). Of those who have used these services:

- 58% have applied for Credit Transfer;
- 27% have applied for a Prior Learning Assessment; and
- 15% have applied for both.

Graduates who have applied for one or both of these services were asked if they had received course credit for courses taken at another institution or from an employer. The majority of these graduates (70%) reported that they had received course credit. This course credit resulted in a reduced course load for 70%, reduced tuition for 3%, reduced course load and tuition for 13%, and some other result for the remaining 14%.

The graduates who received course credit (n=231) provided the following evaluations of the services they received:

- 57% were very satisfied;
- 39% were satisfied;
- 3% were unsatisfied; and
- 1% were very unsatisfied.

Peer Tutoring

Sixty-six percent of graduates were aware of peer tutoring at the NBCC. Among graduates who were aware (n=1,461), 14% reported that they had used the peer tutoring system. Graduates who had used the peer tutoring system (n=203) provided the following evaluations of the effectiveness of the assistance provided through peer tutoring:

- 51% provided a rating of excellent;
- 40% provided a rating of good;
- 5% provided a rating of fair; and
- 4% provided a rating of poor.

Post Program Artistic Involvement of NBCCD Graduates

Graduates of the New Brunswick College of Craft and Design (n=14) were asked several questions about their post-training involvement with the arts community in New Brunswick.

Since graduation, one NBCCD graduate had applied to the New Brunswick Arts Board or the Canada Council for funding to promote or prepare his/her craft. This graduate received an award or grant valued at $2,500.

Since graduation, 57% of NBCCD graduates (n=8) reported that they have contributed to the arts through exhibits, donations or in other ways.

During the reference week, 71% of those who had completed a program through NBCCD (n=10) were practising their craft or preparing for an exhibit for which they were not paid.

The sections which follow present information about graduates on a program-by-program basis.

4.0 Survey Results by Campus and Program

The following section contains a fact sheet for the Class of 2008, fact sheets for male and female graduates, a fact sheet for each campus and fact sheets for all programs for which more than 3 graduates were interviewed. Information is presented first in summary form if the program is offered in more than one location, followed by information on the program for each campus.

The programs which follow have been excluded because of the small number of graduates reached (3 or less). Although excluded from this section, labour market information for programs in which graduates were contacted may be found in Section 5.0.

2D-3D Animation Technology	Péninsule acadienne
Accommodation, Food & Beverage Services	Edmundston

6.0 Graduate Assessments of Programs and Services

In the tables which follow, the percentages for each assessment (excellent, good, fair and poor) are based on responses from those who actually used the services. The final column in these tables (not assessed/not used) is presented for informational purposes. Overall, peer tutoring, employment counselling, counselling services, and student life activities were least likely to be evaluated by graduates.

Appendix A

Terminology

NBCC and CCNB

The New Brunswick Community College and Collège communautaire du Nouveau Brunswick is a network of twelve campuses situated throughout the province of New Brunswick.

Average Weekly Earnings

Refers to the average of the gross earnings that graduates reported for the reference week. The average weekly earnings are reported for each program and for each campus where the program is offered. The figures presented are based on earnings reported by graduates who indicated that their employment was either directly or indirectly related to their training.

Employed

The number of respondents who had a job during the reference week.

Employment

Defined in terms of full-time/part-time and permanent/temporary as follows:

Full-time	Employment of 30 hours or more per week.
Part-time	Employment of less than 30 hours per week.
Permanent	Employment which has no prearranged termination date.
Temporary	Employment which ends at a prearranged date.

Employment Rate

The number of employed graduates as a percentage of those in the labour force.

Employment Related to Training

Employed graduates were asked about the extent to which their employment during the reference week was related to their training program. Options presented to the respondent included directly related, indirectly related and not at all related.

Related Employment

Includes employment that graduates reported as either directly related or indirectly related to their training program. *Directly related* means that graduates were in jobs for which their training programs had been designed. *Indirectly related* means that graduates were in jobs that required at least some of the skills that were acquired during their training program.

Not at all related

Means that graduates were in jobs that did not require any of the skills that were acquired during their training program.

Graduate Population

Graduates of regular training programs or non-regular (contract or distance) training programs of twelve weeks or more in duration that terminated between January 1, and December 31, 2008.

Labour Force

In the context of this survey, Labour Force is composed of respondents who were either employed or unemployed but looking for work during the reference week.

Not in the Labour Force

Respondents who were not working and not looking for work, during the reference week.

Labour Force Participation Rate

The percentage of respondents who were actively participating in the labour force during the reference week (based on the total number of respondents).

Labour Force Survey

A monthly survey by Statistics Canada which collects labour force information from a representative sample of the working age population.

NAICS (North American Industrial Classification System)

NAICS was used to categorize the industrial sectors/industries in which graduates were employed in the reference week. Fact sheets list the top industries for employment.

NOC (National Occupational Classification)

The National Occupational Classification was used to categorize the kind of work done by graduates. The top responses are given.

Programs

Regular

Programs that operated throughout the year on a year-to-year basis. Regular training programs are funded through the departmental budgetary process. Regular training programs are listed in the annual NBCC and CCNB Calendars. (R=Regular)

Non-Regular

Programs that are offered through the NBCC or CCNB that are not part of the regular program listing in the Calendars. These programs may or may not have the same content as regular training programs of the same name. (NR=Non-Regular)

Co-op

Cooperative Education Programs integrate periods of classroom study with periods of training in related work. Each work situation is developed and approved by the College as a suitable learning situation. Co-op trainees are placed in productive work, receive wages and have their progress monitored by the employers and representatives of the College.

Articulated

A program offered in two stages. One stage is completed at a community college, and leads to a diploma and a second is completed at a university and lead to a degree.

Reference Week

The week of June 7 - 13, 2009 served as the reference week for this survey. During the survey all graduates were asked about their activities during this week.

Response Rate

The number of respondents as a percentage of the number of graduates.

Self Employed

Someone who is working but has no employer other than her/himself.

Total Employment Since Graduation

The total number of graduates who reported that they had been employed, at some time, since completing their training at an NBCC or CCNB.

Relation of Employment Since Graduation to Training

The percentage of graduates who reported that they held at least one employment positions since graduation which was either directly or indirectly related to their training program at the NBCC or CCNB.
